THE INEVITABLE ENDING.

WINTER WEDS SUMMER AND A TRAGEDY IS THE OUTCOME.

A Prominent West Virginian Driven to Insanity by a Robbery—Escape of Lane, the Robber, and the Victim's Wife—The Victim's Wife, K. L. Harper, Ex-Cashier of the Fidelity Bank, Condemned of Fard—Criminal Calendar.

By Telegram to the Post-Dispatch.

BOSTON, Mass., July 13.—Fourteen months ago Dr. William B. White of Jefferson place married a woman about 20 years younger than himself. A month after marriage his wife made a visit to Germany, her husband and she had not seen since. Little time with her husband. She was in maiden like a ballet dancer and very pretty. Dr. White is 74 years old. The disparity in their ages made the union an unhappy one, and today the troubles culminated. When at the dinner table the doctor said: "Ellen, I know you don't love me."

Mrs. White went up stairs and the doctor stepped out to the back yard. A few minutes later he re-entered the house, passed through the dining-room where the young servant, Rosa Glasse, 14 years old, was removing the dishes from the table and at once went up stairs. A moment later Rosa heard a noise and she rushed from the house and called for aid. The people in the adjoining house ran into the house where the tragedy occurred and met Mrs. White coming downstairs, with blood streaming down from a wound in her head near the ear. She said: "The doctor has shot me and shot himself. Somebody run for a physician."

The doctor was found in the room where the shooting took place. He was dead. His wife's wound is not serious and she is expected to recover.

Fatal Quarrel.

By Telegram to the Post-Dispatch.

ST. MARTINVILLE, La., July 13.—Last Saturday evening, near Beard's plantation, a difficulty occurred between a young white man named George Lasseigne and a colored boy which resulted in Lasseigne shooting the boy, from the effects of which he died the following day. The particulars are as follows: Lasseigne was passing by the plantation of a young man when they were met by the negro, who told them good evening without taking off his hat. One of the crowd remarked: "You must take off your hat when you meet white folk."

Preparing for Death.

By Telegram to the Post-Dispatch.

LOUISVILLE, Ky., July 13.—Harry Smart, who will be hanged here on July 15, was baptized yesterday by Father Brady of the Roman Catholic Church. The only persons present were a turnkey, Father Brady and White and a female inmate of the State Prison. Smart's father and other relatives decline to see him in jail or have anything to do with him. To-day, however, he obtained permission to be buried from his stepfather's home. He has changed very much, the violent and reckless man of yesterday, the violent and reckless man of yesterday, the violent and reckless man of yesterday.

Brice was anxious for the Democratic party to begin its work immediately.

There are those who are opposing facious hard to reconcile. Whitney is not secret, and that the local leader believed that these gentlemen had put their heads together for the purpose of coming to a common understanding of the situation.

TO MEASURE FOR A DRESS.

VALUABLE SUGGESTIONS ON AN INTRICATE
MATTER.Self-Measurement Blanks That May Be
Used by Any One—Dresses Made Greatly
Simplified—The Measurements That
Must Be Taken—No Reason Why All
Should Not Fit Well.

There are no two things alike in the world, there are certainly no two female figures that are just the same. It is rather surprising, therefore, that the manufacturer of ladies' outer garments has attained such a point that so many figures can be perfectly fitted, says the *Cloth, Suit and Dress Review*. Outside of the figures which run along in general lines and come under the head of a 34, 36, 38, etc., every cloak man has experience with specials, those whom it is hard to fit, and for whom no provision can be made in a general stock. For these special garments must be made, and this branch is a considerable feature in almost every house. Manufacturers are not particular in order to these orders, but are compelled to look upon them as necessary evils. In order to lessen the difficulties in the way of fitting them and to insure a good fit, and thus avoid having them returned, it is of the utmost importance to take a correct measurement of the individual. A correct measure is, therefore, a pertinent subject. Many firms get up their own self-measurement blanks. We have before us a number of these which we present as illustrating the best ideas obtainable:

1 to 1, across the back; 12 to 12, length of back waist; 14 to 14, high shoulder; 15 to 15, side waist; 14 to 14, front waist; length of garment (back).

1 to 1, around bust and back under arm; 1 to 2, across bust from seam to seam; 3 to 8, around the neck; 2 to 5, shoulder to elbow; 6 to 7, elbow to end of cuff; 5 to 8, length of shoulder; 2 to 5, around arm at shoulder; 9 to 9, around the hips.

11 to 13, across the back; 15 to 16, length of waist; 17 to 17, around the waist; 20 to 20, around the dress at the number of inches, measured from the neckband, that saque is desired; 21 to 21, around bust and back over arms. Length of saque. Accurate measurements should be accompanied by a full description of the individual measured. This is essential, for it is a fact that by comparing measurements taken by two different persons the results will not always be the same, particularly should any peculiarities of the figure be given. Following is a blank furnished by a Toledo firm, which we have heard highly commended. It is not illustrated by cuts, but seems sufficiently clear to afford the fullest information:

Measure under arm, over shoulder blades, and fullest part of bust. Waist. Hips (6 inches below waist). Length of waist. Length of garment. Length under arm to waist. Width of back. Front width across fullest part of bust. Front length—from neck to fullest part of bust. Front length—from neck to waist, and length of garment in front. Inside sleeve length. Arm size. Around muscle. Around neck for collar.

Measure should be carefully taken with a correct tape measure, and following questions answered: If person has high shoulders; if person has straight shoulders; if person has sloping shoulders; if person stands erect; if person stoops forward; if person has large hips; if person is lean or stout; if person wears large or small, or no drapery at all; weight; if for miss or child also. Do not be misled in taking measurements by the cut of the customer's dress.

1 to 1, around neck; 2 to 2, around bust under arm; 3 to 3, around bust from seam to seam; 4 to 4, around bust and back over arms; 5 to 5, around bust and back over arms; 6 to 6, around the waist; 7 to 7, around the hips (six inches below waist); 8 to 8, side waist; length of garment (front).

1 to 1, around neck; 2 to 2, around bust under arm; 3 to 3, around bust from seam to seam; 4 to 4, around bust and back over arms; 5 to 5, around bust and back over arms; 6 to 6, around the waist; 7 to 7, around the hips (six inches below waist); 8 to 8, side waist; length of garment (front).
